Dr Andre M Dumas in association with Cosmodent.co.za would like to introduce a unique Conservative Dental Benefit in addition to your existing Medical Aid.

As you are aware, Dentistry has become very expensive over the last decade and with the rise in dental costs, the decline in dental benefit covered by your medical aid whether a separate benefit or savings plan which in turn exhausts your chosen plan. Most Medical Schemes provide a Savings Plan from which all your day-to-day benefits are paid; Dentistry, Optometry, Acute Medicine, GP-visits etc.

Now you have the opportunity to cover your Conservative - and Preventative Dentistry through our unique product, Cosmodent Conservative Dentistry Plan (CCDP). This product will protect your Medical Savings Account and cover you and your family for most of your Conservative- and Preventative Dental needs.

Annual Benefits covered:

- 1) 2 Full dental examinations/consultations per year per dependant – once every 6 months.*
- 2) 2 Preventative treatments/Scaling and polishing per year per dependent – once every 6 months.*
- 3) Free emergency consultations - unlimited.*
- 4) Free emergency pain relief treatments - unlimited.*
- 5) 4 Extractions if indicated*
- 6) 2 X-rays per dependent per year.*
- 7) 3 Composite / Tooth-coloured Restorations per dependent per year.*

A 3 month waiting period applies. On early termination of your contract, you will be held liable for all premiums of the remainder of the contract period. The CCDP-contract is available for a minimum of 2 years and you may renew your contract after the 2-year period.

Contributions:

Main Member: R100.00 per month.

Adult Dependent: R100.00 per month.

Child dependents: R75.00 per dependent.

(Adult: Any person older than 18 years)

(Child: Any person younger than 18 years)

Please feel free to contact us at any time for more information.

Application Documents will be supplied on request.
